

LifeOS + Jarvis — COMPLETE FIGMA SITEMAP & PROTOTYPE PLAN

This document tells you **exactly** how to structure Figma, connect screens, and create a realistic prototype like a real SAAS product.

FIGMA FILE STRUCTURE (NON-NEGOTIABLE)

Figma Pages (Left Sidebar)

1. Cover & Vision
 2. Design System
 3. User Types & Personas
 4. User Journey Flows
 5. Sitemap
 6. Low-Fi Wireframes
 7. High-Fi UI
 8. Prototype (Linked Screens)
-

PRODUCT SITEMAP (WEB / SAAS)

AUTH & ENTRY

Landing → Signup → Email Verification → Login → Forgot / Reset Password → Dashboard

DASHBOARD (CORE HUB)

Dashboard |— Today View |— Alerts State |— Prediction Highlight |— Jarvis Suggestion Expand |—
Quick Actions |— Add Expense |— Add Reminder |— Talk to Jarvis

JARVIS AI SYSTEM

Jarvis Chat (Global) |— Idle State |— Suggested Prompts |— Conversation View |— AI Thinking |—
Action Suggestion |— Confirmation Modal |— Explanation Modal |— Feedback (👍/👎)

👉 Jarvis accessible from **every screen**

INSIGHTS & PREDICTIONS

Insights | Overview | Monthly Summary | Trend Analysis | Forecast Graph | Risk Alerts | Why Am I Seeing This? | Ask Jarvis About This

EXPENSE FLOW

Add Expense | Amount Input | Category Select | Member Assign | Review | Success State

Expense List | Expense Detail | Edit Expense | Delete Confirmation

FAMILY (OPTIONAL)

Family Overview | Invite Member | Invite Sent | Pending Invite | Member Profile | Edit Role | Remove Member

REMINDERS & TASKS

Reminders List | Add Reminder | Reminder Detail | Edit Reminder | Alert Triggered

SETTINGS

Settings | Profile | Password | Notifications | AI Memory | Data Export | Delete Account

BILLING

Subscription | Plans | Upgrade | Payment | Success | Failure

PROTOTYPE FLOW (WHAT TO CONNECT)

PRIMARY PROTOTYPE (MUST HAVE)

Landing → Signup → Login → Dashboard → Jarvis Chat → Suggestion → Confirmation → Insights → Forecast → Ask Jarvis → Add Expense → Success

 This alone proves **full product logic**

SECONDARY FLOWS

- Dashboard → Members → Invite → Success
 - Dashboard → Settings → AI Memory
 - Dashboard → Subscription → Upgrade
-

INTERACTION & ANIMATION PLAN

Micro-interactions:

- Card hover
- Button press
- Chat typing dots
- Toast notifications

Transitions:

- Slide-in Jarvis panel
 - Modal fade
 - Page soft transition
-

PROTOTYPE RULES (DESIGNER GOLD)

👉 No dead ends 👉 Every CTA clickable 👉 Back navigation exists 👉 Empty states designed 👉 Error states designed

HOW TO PRESENT THIS CASE STUDY

Portfolio Story Order:

1. Problem
 2. Why existing tools fail
 3. LifeOS solution
 4. Sitemap
 5. Key flows
 6. High-fi screens
 7. Prototype demo
 8. Learnings
-

FINAL RESULT

If you follow this sitemap + prototype plan: - You'll have a **real SAAS UX case study** - Developers can estimate & build - Founders can pitch - Clients will take you seriously

NEXT STEP (EXECUTION)

A) Dashboard high-fi layout B) Jarvis chat UI deep dive C) Design system (colors, typography, components)

Reply with **A / B / C**
